

COVID-19 UPDATE

At Keystone, the health and safety of our employees, tenants, investors and business partners is of utmost importance. With this in mind, we are following the guidance of federal, state and local officials as it relates to the current COVID-19 pandemic and have reduced staff at our buildings to essential employees only. All other employees are working remotely until normal operations can be resumed and are fully available to respond to any questions or concerns. Please reach out to staff directly or call (610) 980-7000 for all other inquiries. We ask that everyone conform to all State mandates and CDC guidelines. Please reference www.cdc.gov for more information.
